CONTROL PANELS / GAUGES

Quad Control Panels (Under Dash Mount)

2333- Black Face

This pneumatic control panel is ideal for motorhomes and commercial vehicles. Complete with four pneumatic switches, dual twin needle gauges, and a steel mounting bracket. This control panel will work with any pneumatic system utilizing a reservoir tank.

2297- Black Face
2298- White Face

These gauge panels are plumbed with 1/4" air line and feature four electronic rocker switches with dual twin needle gauges in a brushed stainless steel panel for under the dash mounting. These control panels will work with any solenoid system.

Single / Dual Gauges (Under Dash Mount)

Pneumatic (use with tank) 2149
Electric (use without tank) 2191

Pneumatic (use with tank) 2225
Electric (use without tank) 2229

Pneumatic (use with tank) 2145
Electric (use without tank) 2188

Pneumatic (use with tank) 2241
Electric (use without tank) 2260

All gauges are rated for 0-150 psi (1/4" air line included, 30 ft. with single, 60 ft. with dual)
Pneumatic control panels have switches that direct air flow only and are used with systems using pressure switches and air tanks.
Electric control panels contain an electro-pneumatic switch which will control a compressor and direct air flow.

Rapid Response System - 2283

Rapid Response System II - 2343

(Same as 2283 except for 3/8" Valve Block)

Firestone's Rapid Response air accessory system was developed for the ever growing custom car market. This rapid fill system offers fast inflation/deflation of air springs and ease of installation at a very reasonable cost.

System Features:

- 2 Heavy Duty Compressors(9210)
- 2 3-Gallon Air Tanks(9127)
- Quad Control Panel(2297)
- 30 ft. 3/8" Air Line (9211)
- Preassembled Solenoid Block(9221)
- Plug & Play Color Coded Wire Harness & Solenoid Block

Proper maintenance of your air helper springs and tires will ensure a long and trouble free life.

Gauges read 0 - 100 psi.

9992 1.5" Pressure Gauge: (packed in boxes of 12)

- Ultra-compact, easy to use and store

9993 2" Pressure Gauge: (packed in boxes of 12)

- Built in bleeder valve, accurate to within 1%

9994 2.5" Pressure Gauge: (packed individually)

- Flexible 12" air line hose with swirl chuck
- Built in bleeder valve, accurate to within 1%
- Protective black rubber gauge boot
- Convenient storage pouch

CONVENIENTLY PACKAGED
